

Intelligent Transmitter with Digital Indication LEO 3

- ▶ LEO 3 is a micro-processor based transmitter with a digital display. The top display shows the actual pressure, the bottom display shows output signal. The display is powered by a 4-20mA current loop.

Data

Size:	Ø80mm
Connection:	1/4" BSP Male
Accuracy:	0,1% F.S (room temperature) 0,2% F.S (0-50°C)
Long Term Stability:	0,1%
Functions:	Max / Min Lock
Working Temperature:	0-50°C
Protection Class:	IP65
Accessories:	Protective Rubber Covering, Carrying Bag Software CCS30, Converter
Supply:	8-28 VDC
Output:	4-20mA
Manufacturer:	Keller
