

Pressure Gauge Industrial Standard

Industrial standard Pressure Gauge for measuring pressure in water, steam, air, oil and other media.
Can be ordered with wetted parts in SS2343 for aggressive media.

Data

Size:	Ø 100, 160, 210, 250mm	
Type:	See Chart	
Connection:	3/8" BSP Male, Ø210 and 250mm: 1/2" BSP Male	
Scale:	Double Scale, bar/pascal. Max 1600 bar.	
Accuracy:	Class 1,0	
Maximum working pressure:	Full scale, temporary overload max 30%	
Working Temperature:	-40...+60°C	
Protection Class:	IP54	
Accessories:	Protective Rubber Covering (100mm only), Electrical device, Valves, max pointer.	
Special:	Special scale, Special unit, Special connection Coloured fields on dial.	
Wetted Parts:	Up to 60 bar: Between 100-600 bar Between 1000-1600 bar	Brass/Bronze Stainless steel Stainless steel/chrome molybdenum
Manufacturer:	SMF
