

Pressure gauge, Low pressure, bellow system

- ▶ Measuring low pressures and/or vacuum in gas or air pipes at furnaces, fireplaces etc. These gauges characterized by great actuating force, giving a more stable display than the traditional capsule gauges. Additionally they withstand overload.

Data

Size:	150 mm
Connection:	G 3/8"
Scaling:	Single scale.
Accuracy:	Class 1.6 - 75%
Working pressure:	1 bar (100 kPa)
Operating temperature:	Max 50° C
Protection class:	IP54
Accessories:	mark pointer
Special:	Wetted parts in stainless steel, accuracy class 1.0, alarm function for PLC.
Manufacturer:	SMF
